Cyber punk is here

SILVER IS THE NEW BLACK

Silver sunglasses are quickly replacing classic black frames, with a split in style between **cyberpunk dystopian aesthetics** and **contemporary Indian designs**. The cyberpunk versions feature metallic, angular frames with reflective lenses, evoking futuristic, tech-heavy vibes. On the other hand, Indian-inspired silver eyewear blends traditional motifs, like filigree work, with sleek, modern frames. This fusion of futuristic and cultural elements creates a dynamic new trend in eyewear. Whether rebellious or refined, silver sunglasses are now a versatile, must-have accessory for the fashion-forward.
